SUMMARY

Motivated and detail-oriented aspiring Data Analyst with foundational knowledge in SQL, Excel, Power BI, and data visualization. Trained in data cleaning, basic statistical analysis, and creating dashboards to communicate insights clearly. Eager to apply analytical skills and learn continuously in a professional environment to solve real-world business problems.

EDUCATION

Bachelor of Technology Computer Science Engineering	8.50 CGPA 2025
--	---------------------------------

HSC (12th) Maharashtra State Board	83% 2021
--	--------------------

SKILLS

Programming Language : Python, SQL
Data Visualization: Power BI, Excel, Tableau
Data Analysis Tool : Power BI, MS-SQL, MS-Excel, Tableau

PROJECTS

Sales Dashboard in Power BI

- Built an interactive dashboard showing trends, product performance, and discount analysis.
- Used DAX to calculate KPIs such as Revenue, Profit Margin, and Discount %.

Online Book Store – SQL Database Project

- Designed and built a normalized relational database using MySQL to manage books, authors, categories, and customer orders.
- Developed SQL queries to analyze sales, count books by category/author, and generate customer order reports using joins and aggregate functions.
- Ensured data integrity through primary and foreign keys, and created views to simplify data access for reporting.

HR Data Analysis – Excel Project

- Analyzed employee data to identify trends in attrition, hiring, and departmental performance using pivot tables and filtering techniques.
- Built an interactive HR dashboard to visualize key metrics such as employee count, attrition rate, average tenure, and salary distribution.
- Utilized Excel formulas (IF, COUNTIF, AVERAGEIF) and conditional formatting to highlight high-risk employees and optimize workforce planning.
